Abstract:

Dear JOSHA readers, once again we find ourselves saying goodbye and closing another wonderful issue! As you may have noticed, our bi-monthly editions are made up of more than ten articles throughout February and March. With this change we have achieved an incredible variety of topics within the same edition, covering literally all our areas and also giving space to current opinion articles, for example in relation to society and the effects of COVID -19. In addition to this change, we would like to remind you of our current Demetrios Award 2020. Don't forget that you can now submit your research and opt for the 500 Euro prize plus publication of the work in our Journal.

JOSHA - Journal of Science Humanities and Arts

Editorial Volume 7 Issue 2

Dear JOSHA readers, once again we find ourselves saying goodbye and closing another wonderful issue!

As you may have noticed, our bi-monthly editions are made up of more than twenty articles throughout February and March. With this change we have achieved an incredible variety of topics within the same edition, covering literally all our areas and also giving space to current opinion articles, for example in relation to society and the effects of COVID -19.

In addition to this change, we would like to remind you of our current [Demetrios Award](#). Don't forget that you can now submit your research and opt for the 500 Euro prize plus publication of the work in our Journal. You can immediately submit your work by mail to admin@josha-archive.org to participate. Keep connected with our social media accounts (Facebook & Instagram) to see and get more information about this wonderful idea to promote and support the talent of young students all around the world.

In the same way, we are proud to show an increase in the number of visits and downloads in all our articles. This explains not only the need to find free and valuable information, but also the need to share your own research with the world through this online platform!

We are happy to carry on a successful way with all your support and hope to have a wonderful spring overflowing with endless interesting articles from all over the world. Together, we have achieved so much in such a short time. Therefore, we thank you and promise to continue to work to connect more authors around the world and continue to share important knowledge, because the *knowledge that is not communicated is wasted knowledge!*

The Editorial Board and everybody in JOSHA would like to thank our readers and authors for supporting this project.

We wish all our readers a joyful reading experience at JOSHA!
