Abstract:

Dear josha-journal readers, In what kind of world do we want to live in? In a world of walls and influence by government agencies? A world of bias and doubt towards others? Or in a world of exchange between countries, people and, in particular, scientific exchange? We at josha-journal strongly advocate the second answer. And so, in its twelfth year of existence, the journal should be a forum for all those who wish to further this exchange. Only free scientific research, the removal of boundaries and mutual trust will take us further. And so we work as a team with our slogan “Better together - together better”!
