Once again we celebrate the mission of JOSHA to offer its library services as a modern version of the Library of Alexandria. As a non-profit organization we have been able to provide scholarships to significantly support the careers of many students, artists, and young scientists from all around the world. Our open-access journal lays out a forum where they can present their achievements. There, you can value their presentations and follow-up on the impact of your donation.

Today we are announcing a new button on our website through which you can support us.

With your donation you set a sign of philanthropy and help to continue our mission to support the future careers of young gifted people, especially during the time of the Corona Pandemic.

We are happy to carry on a successful way with all your support and hope to have a wonderful summer overflowing with endless interesting articles from all over the world. Together, we have achieved so much exile in such a short time. Therefore, we thank you and promise to continue to work to connect more authors around the world and continue to share important knowledge, because the
