Happy new year 2021

For most of us, the year 2020 did not go as we had imagined and will remain in our memories for a long time. Two things have become apparent: firstly, constant support for scientists is more important than ever, especially when we are faced with new problems in the medical field. Secondly, digitalisation has taken another giant step in 2020. We see this as confirmation that all knowledge and research have their justification, that it must be freely accessible and that scientists must be supported. With the Journal of Sciences, Humanities and Arts, the basics for making research visible and for digitalisation are existent. We want to move on in 2021 to provide you many more articles in your favorite research fields and further exciting artworks.

Now we hope you enjoy reading the journal.

The whole Journal-Team wishes you a happy new year 2021!

Dr. Stephan Seiler, Vice President International Academy of Sciences, Humanities and Arts
